

HANOVER PROJECT: International FASD Day 9 September 2019

The FARR Hanover team and clients formed a group of 9 participants that walked through the community on International FASD-Day, 9 September, to distribute FASD-knots and share the FASD-prevention message. People who received the knots signed their support for FASD-prevention on the white T-shirts worn by the 9 participants. In total 999 FASD-knots were distributed.
