

GRAAFF-REINET

FARR Graaff-Reinet project commemorated International FASD Day firstly at the local FARR office by sharing the prevention message, ringing the bell and having a minute of silence for those affected by FASD and their families and/or caregivers. This event was attended by various stakeholders from the community such as Vuyani Safe Haven/Learning Centre, DSD, Midlands Hospital, SAPS Academy, Health care workers from DOH, Khomanani White Door of Hope and Montego. Project Coordinator Monica Dyakumeni and community workers Azola Tom, Juline Lewies and Yulenda Elie also visited 7 schools from the community where they shared the message and handed out FASD knots. Thank you to each and everyone who is contributing towards our project. Together we can make a difference.
