

## HANOVER Project 9 Sept 2020

On the 9th of September, we commemorate International Fetal Alcohol Spectrum Disorder Day. All over the world, this day is recognized as one of raising awareness and sharing prevention messages on the dangers of alcohol use during pregnancy. In this picture, 9 community members from Hanover, Northern Cape, are busy painting awareness messages on T-shirts which they will be wearing on the day. At 09:00, they will gather at the FARR office, while Portia Tyibela (FARR community worker) will share a short FASD prevention message. At 09:08, they will have one minute of silence to think about individuals affected by FASD and their families. At 09:09 by ringing a bell, the silence is broken thereby calling all people to take action in creating awareness about FASD. The community members together with FARR colleagues, will then walk through Hanover sharing FASD knots.
