

# Bringing hope to Britstown community

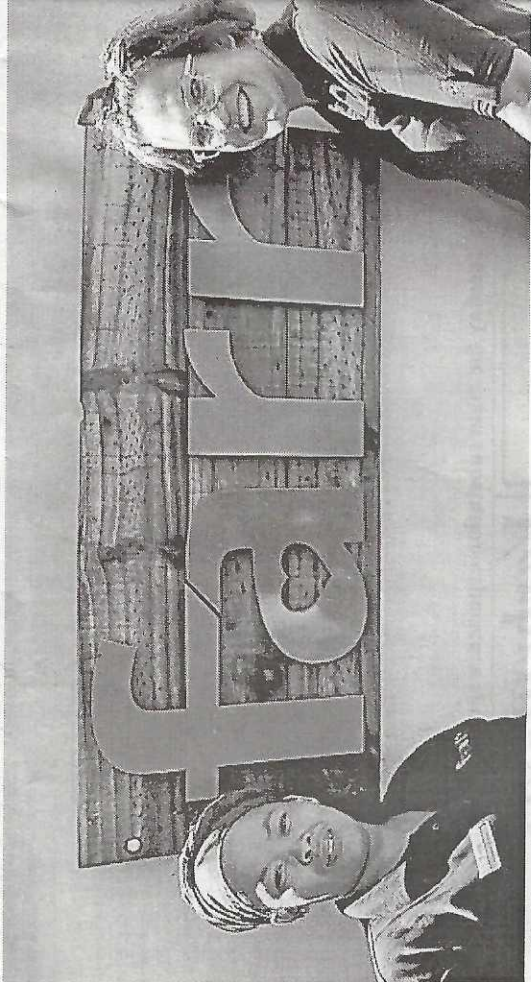

BRITSTOWN – FARR is very excited to announce that, with funding from De Aar Solar Power, the project in Britstown will be continuing for another year, until March 2024.

This funding enables FARR to continue the project which started in 2019. Pregnant women will once again be supported by means of the Healthy Mother Healthy Baby© Programme, adolescents and young people can enroll in the Youth and Adolescent Programme and the senior citizen can join their own Support Programme.

The “Do You Have 3-Minute” Programme will again be on offer to all, thereby information regarding alcohol abuse and the prevention of Fetal Alcohol Spectrum Disorders (FASD) will be shared with community members. The hugely successful early childhood development programme, the Knock-Knock Programme, offered to mothers and their pre-school children in their own homes, will be implemented as a new programme.

Thus far the Britstown community has been very responsive to the various programmes on offer. It brings Jean Vanier’s famous quote to mind – “One of the marvelous things about community is that it enables us to welcome and help people in a way we couldn’t as individuals.” We hope and trust that this extra year’s funding granted to FARR will facilitate a year full of hope and change in Britstown. FARR is grateful for the support received from De Aar Solar Power which is providing us and the community members with the opportunity to jointly secure better futures for the children in Britstown.

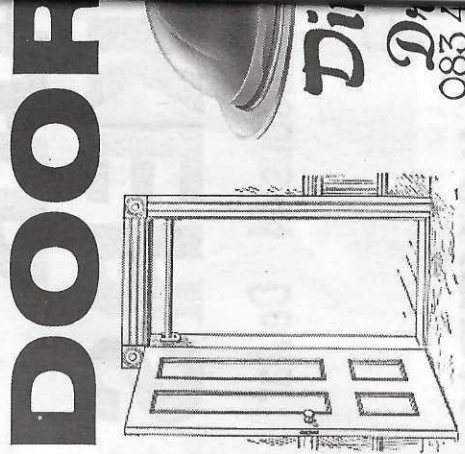

For any further inquiries please contact the Project Coordinator, Ms. Meryll Smit at [deaar@farrsa.org.za](mailto:deaar@farrsa.org.za) or 063 385 1961, or visit the Britstown Office in the Main Road, on the same

Ms Ruenele Boesak (Community Worker) and Ms Meryll Smit (Project Coordinator).
